

Splash Plateau

Jump for joy!

This multifunctional Splash Float is versatile in its usage. Jump off it, hang on to it... more than enough play options to choose from! Your visitors can use it, for instance, to stand on and practice their diving skills. In this particular case the additional bonus is a balance test to not fall off instead. Make sure the float lives up to its name and create that splash!

Approved inspection to guarantee safety

JB develops and manufactures attractions that can safely be used by all players. All water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. That is why we provide an approved inspection certificate, a log book and a clear manual for every water attraction. In addition, all products come with a Bravo air pressure gauge to ensure the right air pressure is entered. The anchor points have to be fastened with appropriate anchoring materials to keep the product in place and prevent it from floating off or getting too close to other objects. Because the item is airtight, no constant air supply is needed. In short, the attraction only has to be inflated once for the fun to start! We have thought of everything.

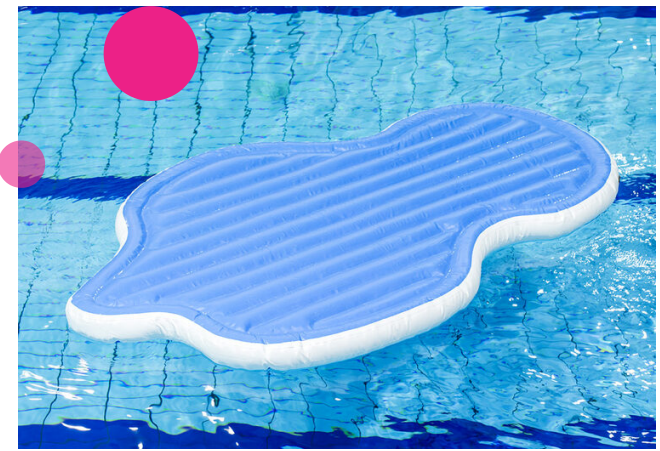

High product quality

We set extremely high demands on all our products. In order to guarantee quality, we use high frequency welded PVC material, weighing 900 gr/m². The material we use is strong and colorfast. The water attractions are durable and they are easy to keep clean to boot. The airtight Splash Float comes with a 1-year warranty.

Purchase this fun inflatable Splash Float for use in the pool and give your customers a fantastic day of water fun to remember!

More than 15,000 satisfied customers

Our team of designers, developers and logistic staff supply unique inflatable attractions in a grand way! That is exactly why JB has made people around the globe jump for joy for well over 15 years now. In addition, our customers are always assured of our professional service and delivery. That is exactly why they tend to call us 'creators of greatness'!
