

Sorbo ball pool

Roll through water

Fill the airtight Sorbo Ball Pool with a small amount of water and 2 or more people can play on it with water balls. A sensation on water! Combine this square SOrbo Ball Pool with water balls, and your customers will feel like they're walking on water. Because of its 10x10 meter size, there is enough room to turn it into a splash of a water ballet.

Safety and service

For years, JB has designed and manufactured inflatable water attractions that can safely be used by everyone. We will provide you with an approved inspection certificate (NEN-EN 15649:2009), a blower, a Bravo air pressure gauge, a log book and a clear manual for all attractions. The product is airtight, which means it only has to be inflated once and does not require a blower for a constant airflow. This means the pool can easily be set up wherever you want. Let's get the party started!

Our guarantee: JB's high product quality

All our water attractions are made of strong, high-frequency welded PVC material weighing 900 gr/m2. This is our way of guaranteeing the quality of our products and ensuring that the products are durable and easy to keep clean to boot. The Sorbo Ball Pool comes with a 1-year warranty.

Purchase the Sorbo Ball Pool and give your customers an experience to remember!

Creators of greatness

For over 15 years, JB has made people around the world jump for joy. More often than not literally! Our team of designers, developers and logistics staff supply unique inflatable attractions in a grand way! Customers are assured of our professional service and delivery. They tend to call us 'creators of greatness' for good reason!
